EXPERIENCE

Full Stack Developer

Apr 2026 - Present

Geekonomy Technology Pvt. Ltd.

Bengaluru

- Developed and delivered 50+ production UI screens across multiple SaaS modules using Next.js and reusable component patterns, maintaining consistent frontend implementation across the application.
- Designed and implemented REST APIs across 10+ backend modules using NestJS, with DTO validation and Swagger/OpenAPI documentation to standardize API contracts and frontend integration.
- Contributed to JWT authentication and role-based access control across 3 roles (super admin, tenant admin, employee), enforcing authorization across 20+ protected routes on the backend with matching conditional UI rendering on the frontend.
- Investigated and resolved frontend-backend API payload mismatches, tracing data-flow issues across Next.js and NestJS to restore consistency between API contracts and frontend integration.
- Contributed to a two-stage GitHub Actions CI/CD pipeline for staging and production, automating linting, type checking, builds, Nginx configuration, and deployment workflows.
- Diagnosed and resolved an average of 3-5 application defects per week through reproduction, root-cause analysis, implementation, and validation while participating in Git-based pull requests and peer code reviews within a 6-7 member Agile engineering team.

Full Stack Developer Intern

Oct 2025 - Mar 2026

Geekonomy Technology Pvt. Ltd.

Bengaluru

- Contributed to Bragi, a multi-tenant SaaS CRM and project management platform that started as an internal tool and grew into a B2B product, with a PostgreSQL schema spanning 54 tables.
- Designed and implemented 3-5 database tables for core application modules, collaborating with a senior developer on schema relationships and integration with application functionality.
- Developed CRM and project-management interfaces using React, following established component and state-management patterns across the product.
- Integrated REST APIs between frontend and backend systems and diagnosed data-flow issues during development and QA validation.
- Reproduced and validated frontend/backend defects using Linear and Jam, collaborating with QA during Agile sprints to verify fixes and maintain application quality.

Deep Learning Research Intern

Oct 2024 - Nov 2024

DRDO - CABS

Bengaluru

- Worked on multiple stages of an aircraft detection system, including aerial image annotation, preprocessing, model training, and evaluation using CNN and Faster R-CNN architectures.
- Annotated and processed approximately 3,000 aerial images and achieved more than 95 percent validation accuracy during model evaluation.

PROJECTS

Portfolio and Client Web Apps (*React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vercel*)

- Designed, developed, and deployed responsive client websites, owning the complete lifecycle from UI design to production deployment.
- Live sites: sridevielectricals.in, ddkinfracon.in

Hermes: Scheduled Task Automation Service (*Cron, MCP'S, Telegram/Discord APIs*)

- Implemented a modular, multi-worker service around an 8-job Cron Jobs pipeline of AI agents, processing and routing messages across Telegram and Discord.
- Defined each agent's behavior in a dedicated skill file, enabling scheduled autonomous execution on a fixed schedule without manual triggering.

EDUCATION

Global Academy of Technology

Dec 2021 - Jul 2025

B.E. in Computer Science & Engineering, Bengaluru, CGPA: 7.93

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive UI

Backend & APIs: Node.js, Express.js, NestJS, REST APIs, JWT Authentication and RBAC, Swagger

Databases: PostgreSQL, TypeORM

DevOps & Cloud: Git, Docker, Vercel, AWS (Basic)

Testing & Quality: API Testing, Responsive Testing, UI Testing, Integration Testing

Tools & Practices: Figma, Linear, Jam

AI-Assisted Development: Claude Code, Cursor

CERTIFICATIONS

Prompt Design in Vertex AI, Google Cloud • Gemini for Application Developers, Google
